## EDUCATION

### SDA with WeCloudData

Data Engineering Bootcamp  
01/2024 - 06/2024

### SDA with Clarusway

Machine learning Bootcamp  
09/2023 - 12/2023

### University of the People

Bachelor of Computer Science, 3.85 out of 4 GPA  
2021 - 2024

### Taif University

Bachelor of Chemistry, 3.79 out of 4 GPA  
2014 - 2018

## PROJECTS

[Portfolio](#)

### Data Engineering | SDA with WeCloudData

- Big Data (NLP) Engineering on Azure

### Machine learning - Data Analysis | Kaggle Competition

- Classification with an Academic Success Dataset
- Diamond price prediction 2024
- Unlocking Potential for Elite Training Programs
- Multi-Class Prediction of Obesity Risk

### Machine learning | SDA and Clarusway

- Churn Prediction
- Fraud Detection
- Customer Segmentation

### Front-end development | 100Devs

- Product Landing Page
- Coffee Website

## SKILLS

- **Machine learning:** Model Deployment, Data Cleaning, Data Exploration & Analysis, Data Modeling, Visualization, ML, DL, NLP, AWS, Jupyter, Python (Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn, Keras, TensorFlow).
- **Data Science:** Data Visualization, Data Cleaning, Python, SQL, Power BI, Tableau.
- **Soft Skills:** Teamwork, Communication, Time management, Collaboration, Problem-solving.

## CERTIFICATIONS

- **TensorFlow Developer Certificate**, TensorFlow
- **Databricks Certified Data Engineer Associate**, Databricks
- **LLM Practitioner**, SDAIA
- **Data Science Professional Certificate**, IBM (Coursera)
- **DeepLearning.AI TensorFlow Developer**, DeepLearning.AI
- **Applied Data science Specialization Certificate**, IBM (Coursera)
- **Digital Freelancer Nanodegree**, Udacity
- **Data Analytics Professional Certificate**, Google (Coursera)
- **Product Manager Nanodegree**, Udacity

## PROFESSIONAL EXPERIENCE

### AI & ML Intern

SHAI | 03/2024 - present

- Working on analysing data with python and Power BI
- Creating machine learning models

### AI Applications and Market Analysis Training

Lun Startup Studio | 05/2024 - present

- Finding the best solutions to clients' problem
- Creating machine learning models to solve business problems

### Web Scraping

BeamData | 02/2024 - 05/2024

- Extracting data from watches' websites
- Analysing the collected data and visualize it with Power BI

### UI Designer

Freelancer | 04/2024 - 06/2024

- Designing documents
- Solving the client's problem

### Data Analysis

STC Virtual Work Experience | 01/2024

- Studied and analyzed user behavior.
- Provided recommendations using machine learning algorithms

### Freelance Programmer

Freelancer | 01/2023 - 12/2023

- Assisted clients with programming problems
- Provided programming lessons
- proactively identified and fixed bugs in codes

### Elevate Program

SDAIA, and Google Cloud | 05/2023 - 08/2023

- Solving Business Intelligence problems on Google Cloud

### Web Development Intern

SYNC | 04/2023 - 05/2023

- Designed and developed websites and web applications using HTML, CSS, and JavaScript.
- Created responsive and user-friendly web interfaces.

### Web Designer and UI Designer

Freelancer.com | 11/2022 - 02/2023

- Designed websites with Adobe XD and Figma.
- Directly communicated with my clients in meeting and teach the client about UI Design.

### Machine learning Training

Ministry of Communications and Information Technology |  
10/2021 - 11/2021

- Built machine learning model with python.
